Suspension and Steering

NC30 jackup kit -

Full kit (*exchange rocker and new, shorter bottom link*) £140

New bottom link only £80

(8mm shorter link gives 35mm rear jackup, modified rocker has roller bearing at shock mount to improve suspension action)

HRC replica suspension linkage (*c/w bearings, seals & sleeves*) £300

HRC linkage requires a non-standard shock – I can supply a custom built Nitron R1 or R3, linkage also works with the OEM BMW S1000RR shock.

NC35 jackup plate (*now redesigned for easier fitting*) £15

NC30 fork uprate kit, please specify early or late type £90
(0.83kg/mm linear springs, race grade oil, level setting tool)

NC30 fork uprate kit with stronger 0.9kg/mm springs £95
(for race use or heavyweight road riders)

NC35 fork uprate kit £90

NC35 fork uprate kit with 0.9kg/mm springs £95

Revalve kits (*RaceTech Gold valves - NC30 late type or NC35 forks*)

DIY kit £185 Exchange valve assemblies £210

Full fitting instructions included with all fork kits

Fork Seals, Honda OE, including dust seals £66/pair

NOK Fork Oil Seals (*OEM quality seals*) £22/pair

NOK Fork Dust Seals £24/pair

Fork bottom bolt & drain bolt copper sealing washers (*set of 4*) £4

Fork Bushes, Honda OE, full set of 4 NC30 £60

NC35 £80

NOK Fork bushes (*OEM quality parts*) NC30 or NC35, full set £36

Fork Top Nuts (*complete assemblies for late type forks*) £95/pair

Race grade fork oil, 1 litre bottle £14

Seal & bush kit for OEM Showa rear shock absorber £30

Headrace sets (*including seals and spacers where required*)

Honda OE ballraces NC30 £110 NC35 £80

Taper Roller – NC30 £50 NC35 £45

Headrace Seals (Honda OE) NC30 (lower) £8 NC35 (pair) £15

Swingarm bearing/seal sets (*OEM quality Japanese parts - 1 roller bearing, 2 ball bearings, 2 seals*)

NC30 £50 NC35 £35

Shock linkage bearing/seal sets (*1 very expensive OEM bearing in the NC35 kit*)

NC30 £46 NC35 £72

Steering Dampers -

Hyperpro CSC 140mm side mount steering damper for NC30/NC35	£265
NC30/35 Reverse Mount Steering Damper Fitting Kit <i>(fits 140mm side mount damper with adjuster forward, to avoid knee contact &/or crash damage)</i>	£100
NC30/35 fork clamp for steering damper	£20

Nitron Shocks -

R1 - Non remote reservoir Sports shock with preload, ride height and single proportional damping adjustment.	£540
R3 - Remote reservoir Race shock with preload, ride height and separate rebound and high/low speed compression damping adjustment.	£765
R3 shock for my HRC replica linkage	£765

The major components are common to all these shocks, so the difference across the range is only in the adjustability, not the build quality. All are custom built to suit your weight and style. Available in standard or over stock lengths.

NEW Nitron TVT22 Cartridge kit for NC35 and late type NC30 forks	£725
---	------

(Nitron shock delivery time is usually 3-4 weeks from receipt of your payment)

YSS Shocks -

MZ456 – Non remote reservoir Sports shock with preload and rebound damping adjustment.	£370
MX456 – Remote reservoir Road/Track shock with preload and separate rebound and compression damping adjustment.	£560
MX456-W – Remote reservoir Race shock with preload, ride height and separate rebound and high/low speed compression damping adjustment.	£630

(YSS shocks are sprung for average weight riders, alternative springs available at extra cost – delivery time usually 3-5 days)

Intake & Exhaust

Venhill replacement Featherlight cables -

NC30 or NC35 Throttle (*for Standard or HRC twistgrip, please specify*) £40/pr

NC30 Choke cable (*pattern part*) £25

Fuel tap vacuum side full repair kit (*Honda OE*) £59 Tap/tank O-ring £5

Fuel tap left side repair kit (*shaft/faceplate seals, screws, drill & M4 tap*) £15

Fuel tap vacuum hose (*thick wall silicone hose, won't kink/split*) £5

Fuel pipe (*from tap to carb T-joint, with clips*) £5

Fuel pipe set (*all three hoses, with clips, NC30 only*) £15

Air filter (*Honda OE*) £48 (*HiFlo pattern part*) £31 Sub air filter (*OE*) £3

RamAir air filter foam to fit standard filter housing £6

Float valve assembly NC30 (*needle, seat & filter*) £14 each

Float Needle NC35 £10 each

RO `road` carb needle kit (*NC30*) £40

Carb needle shims (*precision machined*) 0.5 or 1.0mm £4/set of 4

Main jets (*up to #160*) - Std Keihin type - £12/set Dynojet - £20/set

(*Honda & Keihin jets have the same 2.5 size increments but different numbering so Honda 118/120/122 etc. = Keihin 117.5/120/122.5 etc.*)

Pilot jets (*standard #35*) £14/set of 4

Standard type emulsion tubes (*NC30 or NC35*) £32/set of 4

Stock NC30 (J51A/J51B) or NC35 (J8VA) needles £28/set of 4

NC30 carb needle jets (*including fitting tool*) £38/set of 4

NC30 Float bowl drain screws £24/set of 4

NC30 Mixture screws £26/set of 4

NC30 carb float chamber gaskets (*Viton O-ring type*) £10/set of 4

Fuel T-piece to carb body O-ring seals NC30/NC35 £4/set of 4

Fuel T-piece (*the angled one*) with O-rings £23 each

Diaphragm chamber breather T-piece (*the biggest one*) with sleeves £16 each

NC30 or NC35 stainless steel carb allen screw kit £12

Micro drill 0.45mm (*for clearing blocked choke jets*) £2

Carb mounting rubbers (*Honda OE*)

NC30 £80/set

NC35 £76/set

Clips for carb mounting rubbers (*stainless steel, Jubilee type*) £12/set

Ignitech Ignition Systems

NC30/NC35 Ignitech Programmable TCI Ignition Systems –
Supplied ready to `plug and play`, loaded with either Standard or HRC map.

The Ignitech unit has the following features –

Fully programmable advance curve.

Adjustable rev limiter.

Tachometer correction facility.

Built in circuitry for shift light and quick shifter (you just need to add the external lamp/switch)

Inputs for clutch/sidestand lockouts if required.

Outputs for RPM controlled functions (servomotor/powerjet etc.)

TCI & CDI versions also feature two switchable ignition map settings.

Package includes user`s manual, programming software and alternative maps.

NC30 version	£210
--------------	------

NC35 version	£225
--------------	------

With external wiring for shiftlight and/or quickshifter	add £5
---	--------

Gear linkage rod with quickshifter pressure switch	£120
--	------

(available in stock length or longer version for rearsset footrest kits)

Ignitech shift light to suit the above units	£30
--	-----

Ignitech CDI Ignition System - converts from the original TCI (Transistor Controlled) type ignition to CDI (Capacitor Discharge) for better spark power, duration and accuracy at high RPM. Has all the same ancillary features as the Ignitech TCI system. **Requires minor rewiring of the ignition coils, all necessary leads and instructions are included.**

NC30 version	£230
--------------	------

NC35 version	£245
--------------	------

NC30 `Full Synchro` Ignitech TCI ignition system – increases dwell time by eliminating the `wasted spark` and only firing on each compression stroke.

Requires a change to 4 x CBR600RR coil-on-plug `stick` type coils (not supplied in kit)

Plug and play kit with all necessary wiring, connectors and sensors	£265
---	------

UPDATE TO TRADING HOURS – PLEASE NOTE

As from May 1st 2021 I will only be available for enquiries, orders and advice from Monday to Friday 09:00 to 18:00. Please respect this and do not try to contact me outside of those hours.

This is a genuine one man operation and I have been fielding enquiries at all hours, 7 days a week for 25+ years but now I need to reclaim some portion of my time for other pursuits – contrary to popular rumour, there is more to life than Honda V-4s...!

Thanks as ever for your interest and support.
